PCT/JP2004/019742

Box No. II Observations where certain claims were found unsearchable (Continuation of item 2 of first sheet)

This international search report has not been established in respect of certain claims under Article 17(2)(a) for the following reasons:

1. ☒ Claims Nos.: 26-33

because they relate to subject matter not required to be searched by this Authority, namely:

The inventions as set forth in claims 26 to 33 pertain to methods for treatment of the human body by therapy and thus relate to a subject matter which this International Searching Authority is not required, under the provisions of Article 17(2)(a)(i) of the PCT (continued to extra sheet)

2. ☐ Claims Nos.:

because they relate to parts of the international application that do not comply with the prescribed requirements to such an extent that no meaningful international search can be carried out, specifically:

3. ☐ Claims Nos.:

because they are dependent claims and are not drafted in accordance with the second and third sentences of Rule 6.4(a).

Box No. III Observations where unity of invention is lacking (Continuation of item 3 of first sheet)

This International Searching Authority found multiple inventions in this international application, as follows:

1. ☐ As all required additional search fees were timely paid by the applicant, this international search report covers all searchable claims.
2. ☐ As all searchable claims could be searched without effort justifying an additional fee, this Authority did not invite payment of any additional fee.
3. ☐ As only some of the required additional search fees were timely paid by the applicant, this international search report covers only those claims for which fees were paid, specifically claims Nos.:
4. ☐ No required additional search fees were timely paid by the applicant. Consequently, this international search report is restricted to the invention first mentioned in the claims; it is covered by claims Nos.:

Remark on Protest

- ☐ The additional search fees were accompanied by the applicant's protest.
- ☐ No protest accompanied the payment of additional search fees.

Minimum documentation searched (classification system followed by classification symbols)

Continuation of Box No.II-1 of continuation of first sheet(2)

and Rule 39.1(iv) of the Regulations under the PCT, to search.

(Scope of international search)

Claims 1-25 and 34-41 relate to an Hsp family protein inhibitor represented by the formula (I), a compound represented by the formula (IA), or a medicine containing the compound as an active ingredient. However, those which are disclosed in the meaning of Article 5 of the PCT are limited to ones relating to an extremely small part of the compounds claimed, e.g., those shown in the Examples.

Consequently, claims 1-25 and 34-41 are considered to lack a sufficient support by the description in the meaning of Article 6 of the PCT.

Therefore, an international search was made for the compounds specified as examples in the description.
